Response to Restriction Requirement mailed 12-14-04

REMARKS

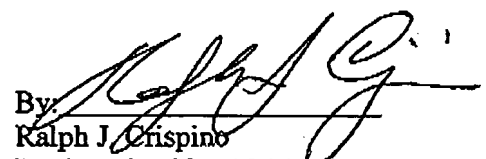

Applicant wishes to thank the Examiner for the attention accorded to the instant application. Claims 1-3 are pending in the present application; claims 4-19 have been withdrawn. Claims 1 and 2 have been amended to more clearly define the invention.

The Examiner has rejected claims 1-3 under 35 USC 102(b) as being anticipated by Katayama et al. U.S. patent 5,786,847. The claims have been amended to define that the stereoscopic image is for display on a stereoscopic display system (i.e., an existing stereoscopic image). This is in contrast to Katayama, which is directed to a convergence system for capturing stereoscopic image.

Therefore, it is respectfully submitted that claims 1-3 are not anticipated by Katayama et al..

The amendments herein do not introduce any new matter. It is believed that the claims herein should be allowable to Applicants. Accordingly, allowance is respectfully requested.

Respectfully submitted,
